

Start-up burner P450, P550, P650:

- Fuel: HFO, LFO, Natural gas.
- Main dimensions: see drawing.
- Weight: 350-450kg, depending on the model.
- Output power (comb. air +30): 10-20MW (P450), 20-40MW(P550), 40-60MW(P650) .
- Ignition: Gas/electric or direct electric.
- Combustion air temperature max. +250°C.
- Combustion air pressure loss: 3.5kPa.
- Instrument air pressure: 5-7bar.
- Fuel oil pressure: 17bar (air/steam atom.), 40bar (pressure atom.).
- Fuel gas pressure: 6bar max.
